BBC on Feeds

<http://news.bbc.co.uk/2/hi/help/3223484.stm>

Reading Feeds

Leopard Mail: Very flaky—Worse than nothing

Safari: Better than nothing

Safari & Leopard Mail have a pref for setting the default feed reader. Set it to NetNewsWire!

Firefox: Better than nothing

NetNewsWire: The Gold Standard and free! I leave my copy running in space 4 where Mail is also running. I set the windows staggered so I can see NetNewsWire's left panel from Mail.
